

CALL FOR PAPERS

International Conference on AI and its Applications

11th and 12th December 2024 – ESTIN, Bejaia, Algeria

About the conference

Organized by the Engineering School of Computer Sciences and Digital Technologies of Bejaia (ESTIN), this event aims to encourage knowledge sharing and collaboration among researchers, academics, and industry professionals. By providing a platform for exchanging ideas and presenting cutting-edge research, the conference seeks to highlight advancements in artificial intelligence and its applications.

The event addresses current and emerging challenges, promoting interdisciplinary research that integrates computer sciences, mathematics, and engineering. Additionally, the event focuses on practical applications, builds connections between academia and industry.

Our goal is to inspire innovation and advance these critical fields. We are proud to host renowned experts and participants from diverse backgrounds, and we hope this event will be a source of inspiration and new collaborations.

As a pioneering institution in the field of information and digital technology, ESTIN, Bejaia, is honored to play a key role in organizing this event. We look forward to welcoming you to our beautiful region and sharing our passion for technological innovation with you.
